

REGISTERED APPRENTICESHIP FUNDING PROGRAMS FAQ

Iowa is committed to supporting Registered Apprenticeship programs via the Iowa Apprenticeship Act and the Iowa Registered Apprenticeship Development Fund.

IOWA APPRENTICESHIP ACT (15B)

- Funding available under this grant is based on the applicant's proportionate share of the statewide total of qualified registered apprentices participating in a qualified registered apprenticeship program
 - A qualified registered apprentice that can be included in the applicant's total apprentice count is defined as an active or completed apprentice during the most recent training year
- A qualified apprenticeship program must be registered with the United States Department of Labor (DOL), Office of Apprenticeship (OA) and must provide a minimum of 100 in-person contact hours to qualify for funding
- Grants received based on applicants' overall contact hours as a proportion of all applicants' contact hours combined. Contact hours are defined as "the combined total of apprentices and Related Technical Instruction (RTI) hours spent instructing apprentices for the most recent training year"
- To include registered apprentices in a sponsor's application for 15B, only registered apprentices who reside in Iowa may be counted
